

INTERNATIONAL BUSINESS BACHELOR OF APPLIED SCIENCE

What is the IB BAS Degree?

The International Business Bachelor of Applied Science (IB BAS) Degree at North Seattle College is a bachelor degree program that builds off of an associate degree or equivalent past university/college level education. The IB BAS degree is a two year program and prepares students to enter the international business industry. The program focuses on providing hands-on experiences such as required internships, practicums, and group projects that interact with companies and industry clients.

Prerequisites for entry into IB BAS Degree:

- Associate Degree or equivalent (2+ years of university/college level courses)
- BUS& 201 – Business Law
- BUS 210 – Business and Economic Statistics
- ACCT& 201 - Principles of Accounting I (or ACCT 110)
- ACCT& 202 – Principles of Accounting II (or ACCT 120)
- ACCT& 203 – Principles of Accounting III
- ENGL& 101 – English Composition I

Have you taken classes or received a degree from a college/university in another country?

Credits received from a college/university in another country can transfer in to the International Business BAS degree and meet degree requirements so you can graduate sooner. If you have 2+ years of college/university education you may be eligible to skip the associate degree requirement and begin directly with the International Business BAS program. Meet with the program manager to see if you will qualify.

When are the classes?

There are two options to take IB BAS classes. Students can either choose the evening hybrid program option and take classes on campus two evenings a week between 5:00 – 8:30pm, or students can choose a new 100% online course option.

How do I get started?

The first step for interested students is to meet with the program manager, Jesse Cooley. In your meeting you find out more information about the degree, talk about prior educational experience, and create a plan to enter the degree.

Applications are accepted January – April each year for the following fall quarter start. Applications are accepted after April until the program is full.

What is the cost?

Resident tuition is approximately \$2100 per quarter while in the program. Tuition assistance is available for those who qualify.
