

# **Beginning Jewelry Fabrication – North Seattle College**

## **Student Tools & Supplies List**

Instructor: Julia Lowther

**\$35 is due to the instructor on the first day of class for your materials kit.**

Please **ALSO** bring with you to class:

- Wet/dry sandpaper - 2 sheets each grit: 220, 320, 400, 600 (dark gray ones used for metal finishing)
- Small CHEAP paintbrush with NATURAL bristles (size #4 (3/32") or smaller)
- Fine point tweezers (4"- 5" long is a good size - "AA" pattern is perfect)
- 3 small containers for solder chips - (ex: multi-day pill box, buddy cups, screw-together bead jars, etc.)
- Cotton apron
- 1-2 old small hand/dish towels
- Pencil
- Fine point "Sharpie" marker
- Scotch brand Magic Tape
- Scissors
- Notebook or sketchbook
- Reading glasses, if you need a little help to see clearly 8" from your nose.

**Please wear cotton clothing and closed toed leather shoes as we work with hot metal.**

Most items on this list are readily available at hardware, office supply, or drug stores.

Sandpaper – Small local hardware stores like Ace and Hardwick's usually sell wet/dry sandpaper in individual sheets (rather than packs).

Fine point tweezers – are needed for precise placement of solder chips during soldering. You can buy inexpensive ones (~\$3.00) locally at both Hardwick's (they have stainless steel and brass ones, both are good) and Seattle Findings & Supply (stainless steel). Reputable online suppliers include Rio Grande and Otto Frei. All addresses/links below.
