

E-MAIL TO STUDENTS

Subject: Student Vote On Proposed Student Center at NSCC

Date: November 6, 2009

Dear Student First Name Student Last Name,

The Student Administrative Council (student government) at North Seattle Community College is conducting a vote of NSCC students to see if there is support for building a Student Center on campus through an additional student fee.

We need to hear from you: should students be assessed an additional fee to help build a student center? Please vote by completing a [short online ballot](#). *Note: To verify that you are a student at NSCC, you will be asked for your SID. This information is for verification purposes only and will not be associated with your responses*

A mailing (letter and brochure) about this project was sent to your home address on October 23, 2009. It described the proposed center as a centralized gathering place with a number of features (e.g. business center, convenience store, recreation center, student leadership offices, study areas, space for concerts and special events, etc.) that would be a hub of activity and promote a stronger sense of community on campus. The mailing also described the additional fee that would be levied to help pay for building the center. To review the content of that mailing, visit the college's homepage (<http://www.northseattle.edu/>) or our homepage (<http://www.nscstudentleadership.org/>) and click on "Proposed Student Center." This pathway will also lead you to the ballot itself.

Voting will be active through midnight on **Friday, November 20, 2009**. We ask and encourage you to cast your ballot by that time. As you talk to other students at the college, please encourage them to do the same.

Your vote matters! The results of the voting will determine whether a Student Center will be built through an additional student fee.

Thank you very much.
